When a child, spouse, or relative struggles with addiction it impacts the whole family. If someone you love has a problem with drugs or alcohol, feelings of anger, frustration and helplessness are normal. Sometimes it's hard to know where to turn for help and what help even looks like. This free and flexible group hosted by Andrew Hertel of Better Options who is dedicated to providing information, resources and assistance for individuals with loved ones suffering from the impact of addiction.

Andrew Hertel is a native of the community, is an Independently Licensed Counselor, Internationally Certified Clinical Supervisor, Addiction Treatment Change Leader and has worked in this field for over 30 years. He has a special interest in the substance abuse field where his goals are to reduce barriers to accessing care and improve treatment engagement.

Join others who have a loved one struggling with addiction or working a recovery program. Addiction impacts the entire family. Education, support and encouragement to one another are offered as we work through our recovery process surrounding codependency and enabling behaviors.

This is a partnership with Better Options Out-Patient Services, Ripley County Drug Awareness Coalition, and Coalition for a Drug Free Batesville
